Business Manager Report

As of November 22, 2017

NPGA Central Office

General:

No issues with the Central Office recently. Numbers are down compared to last year end, however as of this writing there is still 5 weeks of processing to come and that will significantly change the current numbers. We are down in number of herd names registered, and transfers and I don't think those will catch up to last year's figures.

NPGA Coordinators:

The Election Coordinator report has been received and everything seems to be running smoothly in that area. As of this writing, the Affiliated Clubs, Show Coordinator and ROA Coordinator reports have not yet been received, however I work with all of these people regularly and do not foresee any issues there either.

Online Herdbook

I'm not sure why, but I continue to have periodic problems uploading the membership files and herdbook to the website. Typically when I encounter a problem I email the file to Maggie and she is able to eventually get it uploaded from her end.

Membership Roster

I anticipate that I will be producing a new roster in shortly after the first of the year. Unless the board has some other suggestions, I will continue with the same format as was produced over the last couple of years. I will post a notice in Memo of the availability of the roster to members with email upload at no cost to them. A CD version would be available at a charge of \$10 to cover shipping costs.
