

AGENDA ITEM F

Proposal:

NPGA refrain from conducting business on social media sites (i.e. Facebook etc.)

Reasons:

A more formal and confidential meeting forum should be used to conduct business to communicate with other board members, committee chairs etc. Any social media site may not be used by all members/volunteers or not checked as frequently as is necessary to properly conduct business of the organization.

Advantages:

If meetings are to be called, proper notice should be given, to ensure participation of all members that should be included. Impromptu meetings potentially exclude some board/committee members therefore eliminating their point of view as well as representation of their region.

Disadvantages:

There are some that would say that, decisions would not be made as quickly as necessary. However, by acting methodically, it provides time for members to contemplate the topic and ensure that the organization proceeds in a way that is in compliance with their governing documents.

Financial Implications:

None
