

AGENDA ITEM H

Proposal: Under the- Rules for Official Shows-part J. 1. a.(1) currently reads "The placing will be scored 1st place-5 points, 2nd place-3 points and 3rd place -1 point"

Change to:

"The placing will be scored 1st place-3 points, 2nd place-2 points and 3rd-1 point".

REASONS:

The current scoring system mathematically skews the scores because it use the first three odd numbers (1,3,5) instead of the first three numbers (1,2,3)

Advantages:

It would reduce bias that may skew the results of the National Champion Drive. By changing the point calculation from the first three odd numbers to simply the first three numbers it would reduce the likelihood of the results being shrewd if a few judges would decide to band together to vote for one exhibitor/animal to determine the National Champion.

Disadvantages:

None

Financial Implications:

None
