

## Webmaster Report January 2018

The site runs smoothly nearly all the time. Dori still has some issues getting the herdbook to load. But I can get it to go. I feel this may be a speed issue.

I am occasionally contacted by a member regarding their herdbook subscription, forgotten password, trouble logging in, etc. Those are typically resolved quickly.

For those herdbook subscribers that attempt to log in after their subscription expires, I will be looking into it going to a "notice of expired subscription" page rather than just a "page not found".

Show Results, Minutes, Volunteer of the Year, and National Champions are up to date.

I continue to pay to provide myself with routine technical support at 1 hour a month (\$139.00).

Inventory: none.

Budget: I do not foresee any funds requested for the coming year. I am not requesting any changes to my contract.

Respectfully,

Maggie Leman
