

AGENDA ITEM SUBMISSION FORM

Proposal

I move that NPGA close the herdbook as of June 15, 2013. Animals that are undergoing the progeny process can be completed, but no new applications will be accepted.

Changes to the governing documents as follows:

Business Managers job description:

If there are no animals currently being processed:

- The Progeny responsibilities in the Business Manager's job description should be eliminated. (Remove Progeny a. through h.)

If animals are currently in process:

- Leave tasks in job description.

Amend R&R Para 4.C remove the following from the first sentence: "...progeny testing process or..."

Reasons

To protect the purity of the pygmy goat gene pool.

Advantages

The gene pool would be protected and reduce the potential for introduction of genes from other breeds. It would also reduce administrative tasks and paperwork for the business manager.

Disadvantages

Eliminate one source of revenue for NPGA.

Financial Implications

Eliminates one source of revenue.
