

## 2020 NPGA Clinician Report

Well as much of 2020, the NPGA Judges Training Clinic and subsequent Exam was postponed. As such there is not much to report.

There was some discussion about holding a Clinic and Exam at an alternate time to still provide an opportunity for candidates to participate and try for their judging license. And again, as with most of 2020, the logistics of planning an event in this time of uncertainty proved to be too more than anyone wanted to attempt.

I have continued to solicit recommendations for improvement to the Clinic as well as new material to update and add to the Clinic. Diane Keith has been very helpful and generous with her skills and photos. Otherwise, so far, I am left with what I can obtain myself (and I have realized that for all my skills...photography is not one of them!) Nonetheless, I keep working to update and improve.

I wish everyone good health for 2021 and hope to see you soon.

Be well,

April Seiler
