

AGENDA ITEM SUBMISSION FORM

Proposal

I move to change the description of Disqualifying Faults, Breed Markings in the Guidelines for Judging Pygmy Goats to be changed

Under Breed Markings:

FROM: Complete lack of all breed specific markings

TO: "Lacking distinct breed specific markings or having markings that challenge the breed identity"

And under Head & Expression:

FROM: "Eye color other than brown"

TO: "Blue eyes or any color other than brown"

Also make the corresponding changes to the Guidelines for Judging Pygmy Goat Wethers, General Appearance

FROM: "Lacking all breed specific markings or having markings that challenge the breed identity"

TO: "Lacking distinct breed specific markings or having markings that challenge the breed identity. Blue eyes or any color other than brown"

Reasons

Make the guidelines consistent with each other and with the Registration Application.

Advantages

Minimize confusion, maximize consistency

Disadvantages

None

Financial Implications

May increase number of goats disqualified and cause appeals
