

Webmaster Report to the NPGA Board 6/2013

I continue to enjoy being the NPGA webmaster.

Aaron is also the owner of the server for the NPGA website. This has proven to be cost effective for the NPGA. Aaron is the original author of the NPGA website and a very responsive technical advisor.

There is not much new to report. I continue to make updates and changes/additions to the website as requested by the board and others.

Respectfully submitted,

Maggie Leman

NPGA Webmaster
