

## NPGA Technological Advancement Committee

Information received from two vendors so far. Waiting to get quotes for computer equipment until system requirements are known. Estimating \$4,000 for new computer equipment to include storage.

Priced external storage device to begin scanning current paper records. 4TB external hard drive is \$99 through Amazon.

## What Sets Us Apart?

### Offline Data Capture

Our CowSide™ App connects to your EID readers and scale transmitters via Bluetooth to give you effortless, real-time data entry.

### Continuous Growth & Updates

You ask and we listen. That's why we are constantly updating our software and revamping our products to give you the very latest technology.

### Real-Time Tracking

Stay current with real-time tracking tools.

We Take Security Seriously

You are trusting us with valuable herd data, so we take it seriously. We are constantly improving our security measures to make sure we are providing you with the best.

Intuitive Reporting Tools

Interpreting herd data can be complicated, we have intuitive reporting tools with built-in equations that do the thinking for you.

Third Party Data Integration

Easily upload existing herd data to quickly get started with your new herd management tools.

## Centric Software

The cost is \$3995.00 and yearly support is \$250.00 per year. Online registration available June 1. Price includes online registration.

Stop paying other associations or other vendors for doing your herd records. For Centric Software has created a program that associations have DREAMED of. One that is AFFORDABLE, but one that has been truly written and designed for the association. Our **Breed Registry Program** will give you control of your herd registry records. Increase you Associations profits by doing your own herd records.

You can register animals by the click of a button when Breeders send their data Via E-mail or by diskette when using our Breeder Software.

### ***Program Features:***

- Easy to use Data entry Screens and Reports.
