

AGENDA ITEM F

Proposal: Sync NPGA members annual membership dues with herdbook renewal.

I move that NPGA membership renewals and online herdbook renewals be synced.

Reasons: Currently, membership and herdbook renewals could become due on different dates. This leads to a lapse in renewal of the herdbook because reminders are not sent. If renewal dates are synced members would be aware of both renewals based on the postcard received for their membership renewal.

Alternatively, if dates can't be synced a renewal notice would like to be received for the herdbook.

Advantages: Allows members to renew membership and herdbook at the same time.

Disadvantages: Possible current system limitations.

Financial Implications: none
