

Report of Awards Coordinator – Shanna Breeding

I received all my instructions and files from Dori on the computer on 1/15/19. The printer and paper were received shortly afterwards. I have made a few mistakes and but I think all have been corrected. I have purchased plain white paper for the letters that go with certificates and also more envelopes and stamps. My receipts are included.

I'm not sure how much the fancy papers will cost or how much I will need so my budget will be the same as whoever filled it out last year minus any big purchases. To this date I have mailed almost 50 envelopes with certificates already.

Only problem I can see is when I don't get a judges information in and they judged before other judges. I had one buck that received a master champion win but in my records had not been awarded his 4th and final Grand Champion. I knew I had two different judges missing from 2 separate shows in the area so I printed the certificate and recorded it. I need to process the reports as they come to me or I will get too far behind. I worry that if I wait for all judges from previous shows then the workload will be too great, I will be in a hurry and mistakes will be made. I did not send that certificate out and I'm still waiting on the report that gives him the 4th Grand.

I will get a list of new Master Champions and Grand Champions to you!
