

Webmaster Report June 2019

I secured the NPGA website with an SSL certificate for 2 years. This secures the website against hacking personal information especially when payments are being made online. If a new Merchandise head is appointed, and if the NPGA site may once again be hosting the store, having our site SSL secured is important. Also Google will rank us higher with a valid SSL certificate and people visiting will not be getting a warning that our site may not be secure. Cost is \$105.00 per year.

Show results have been updated through Summer 2019.

I continue to pay WSM to provide myself with routine technical support at 1 hour a month (\$139.00).

Respectfully,

Maggie Leman
