

NPGA Merchandise Report

June 2021

Becky Adams

I projected the annual sales in January to be about \$ 5,500.00 and we are on target to hit that projection. We are doing about \$ 500.00 a month in sales so if you stay steady as we predict, we will be hitting our goal for the year.

We are still receiving several orders for Australia and we think it will be increasing as they grow their pygmy awareness in that country.

We are still holding out on bringing in any new merchandise to sell in the Publication side as we do not want to carry more inventory than is needed at this time. As the states open up more we might see an increase in interest in more items and we will address it at that time.
